

EARTH DAY QUEST

NURSE LOG

A fallen tree that decomposes and gives life to new plants; supporting the ecosystem.

BIKE SHARE

2040 target is to have $\frac{2}{3}$ of trips to and from UBC made by cycling, transit, and walking.

BLACK-CAPPED CHICKADEE

Listen for a "chicka-dee-dee-dee" bird song, and look in gardens and forests for their nests.

MOSS

Moss grows in damp, shady environments, providing habitat for micro-organisms and biodiversity.

GREEN DEPOT

A UNA zero waste centre accepting residential waste - textiles, soft plastics, styrofoam, electronics, batteries, and more.

COMMUNITY GARDEN PLOT

Community members grow their own food and flowers in the 200+ UNA garden plots.

ENGLISH IVY

This introduced species is a powerful vine that climbs along forest floors and up trees, suppressing native plants.

EV CHARGING STATION

Electric Vehicles (EV) offer alternative energy for vehicles, reducing greenhouse gas emissions.

EARTH DAY QUEST

<p>STORMWATER FEATURE</p> <p>Manages flood risk by collecting rain water, absorbing overflow, and repurposing it for irrigation.</p>		<p>NATIVE POLLINATOR</p> <p>90% of all fruits and flowers can only grow when pollinated by bees, butterflies, birds, and bugs.</p>	
	<p>LITTER</p> <p>Find a piece of litter on the sidewalk or in nature, and (safely) dispose of it in the appropriate receptacle.</p>		<p>UBC FARM</p> <p>Locate this 24-hectare farm, which creates innovative learning and solutions for sustainable food security.</p>
<p>CEDAR TREE</p> <p>This native tree can grow over 200ft tall, and has been used by coastal First Nations in BC for thousands of years.</p>		<p>WILD CARD</p> <p>You choose! Help the Earth thrive by taking care of it.</p>	

For a chance to win an Earth Day prize, send a photo of yourself on the quest to julia.gellman@myuna.ca.

Your photo may be shared by the UNA. By submitting a photo of yourself, you consent to the UNA's photo release terms found at bit.ly/UNAPhotoConsent.
